PROJECT 24 - GENERAL

INVITATION TO PARTICIPATE

Effective date: 26 November 2015

PROJECT 24 is a joint initiative of RAASA and the SACAA, in consultation with the industry to update the Civil Aviation Regulations with a unique set of regulations and guides as it applies to all aspects of NTCA. The absence of specific provisions in the regulations to deal with the various speciality areas of NTCA leaves everyone involved with little room to allow an environment enabling the development and growth of this part of the aviation industry.

Everybody is welcome to make suggestions to the various regulatory amendments and the new proposed regulations.

Please visit the RAASA website and click on 'Enter for Project 24' under PROJECT 24 on the home page. Here you will find the meeting minutes of all the previous meetings, with the regulations as updated with suggestions for amendments and further discussions, as well as details on how to participate in any of the Focus Groups.

To get a better insight of what Project 24 is all about please click here for the Project 24 Presentation.

Anyone wishing to participate must please contact Rowena Kraidy for further involvement on 083 306 998 or pr24@raasa.co.za.
